Tasks completed, 2017-18

The FHC duties are to consider and process Handbook amendments, to maintain the Handbook and to oversee any grievances.

There were no grievances in 2017-18. However committee experience with a recent grievance prompted a thorough review of the grievance procedures, work that was completed in spring 2017. The committee will discuss a similarly thorough review of grievance policies in 2018-19.

At the request of Pat Ellingsworth (SJU Board of Trustees) the chair and Dean Check met with Ellingsworth and others to discuss the role of the Boards in the Faculty Handbook. These are ongoing discussions, and it is not clear to what extent the CSB Board wishes to be engaged in these matters. However the committee agreed that future discussions would only take place with representatives from both Boards and both Presidents involved, as the handbook is for the Joint Faculty.

We finalized and posted guidelines for proposed revisions, as described in 2.16.

In summary, in addition to several sets of editorial revisions, the FHC reviewed and processed the following:

**Part I:**
No substantive changes.

**Part II:**
Revision of 2.12.2.3 regarding the process for review of proposed changes to benefits
