FEMINIST OF THE WEEK: 
Ida B. Wells-Barnett

She was a journalist, activist, and activist in the late 19th and early 20th centuries. She battled sexism, racism, and violence. Ida was born into slavery during the civil war. She was enrolled at Rust College but was expelled when she started a fight with the university president. She travelled internationally to bring more attention to lynching and openly confronted white women who ignored that issue. Wells was the founder of the National Association of Colored Women's Club which addressed issues dealing with civil rights and women's suffrage.
