Our Mission
◊ Preserve native plant and wildlife communities of the Arboretum lands
◊ Provide opportunities for education and research
◊ Model practices of sustainable land use
◊ Make accessible a natural environment that invites spiritual renewal

Our Vision
We celebrate the unique beauty and richness of God’s creation in central Minnesota and foster the Benedictine tradition of land stewardship, education, and environmental respect.
Saint John’s Arboretum is committed to providing environmental education opportunities to its neighbors, students, and the surrounding community.

CSB/SJU Education

- CSB/SJU students participated in Arboretum programs 5,181 times this year, over 800 of those on the Challenge Course, and 77 on Collegebound.
- We partnered with the Jay Phillips Center for Interfaith Learning to co-sponsor an interfaith wilderness retreat for CSB/SJU and University of St. Thomas students.
- Adventure Programming hosted a wide variety of events, including Banff Mountain Film Festival, Ice Fishing Tournament, Adventure Challenge, Fruit at the Finish Triathlon, Wilderness Medicine certification, and SCUBA certification.
- We also added some new adventures, including a wilderness trip to Hawaii, and a student bird watching day.

Community Education

- Community members participated in Arboretum programs 5,245 times this year, including 446 participants on the Challenge Course.
- The annual Avon Hills conference continues to be a successful community event. Nearly 300 participants came to a diverse set of workshops on themes such as land stewardship, water quality, arts, gardening, natural history, and more.
- We especially thank Master Mark Plastics and Blattner Energy for sponsorship of the Avon Hills conference and support of Arboretum programming.
- Maple Syrup Season was record-breaking once again—it was the lowest production year on record with just over 20 gallons of syrup produced! Hundreds of volunteers came together to host two Maple Syrup Festivals with nearly 800 participants, who enjoyed beautiful (albeit sap-free) days in the sugar bush.

preK-12 Education

- 8,092 student visits were recorded at the Arboretum this year.
- We collaborated with the CSB/SJU Environmental Education Pedagogy class to bring Arboretum activities to the classroom. College students planned and presented activities to the students—a great learning opportunity for all!
- Digital Bridge photography, Projects WET/WILD, the Avon Hills conference, and a Minnesota Department of Education workshop were among the offerings for teacher training this year.

## Membership News

We would like to extend our sincerest thanks to all of our donors. Your gifts allow us to continue our work and allow for the growth of our programs. We could not be as successful without the generous financial and volunteer support we receive each year from our members and friends.

Thank you again to all of our members who generously donate their time and energy to the Saint John’s Arboretum. We also thank our partners, without whom we would not exist: Saint John’s Abbey, Saint John’s University, and the College of Saint Benedict for all of their work and continued support.

Abbey Land Stewardship & Conservation

The Arboretum promotes conservation and stewardship through education and modeling sustainable practices. Some of our annual efforts include sustainable logging, tree planting, prairie burns, invasive species management, and a controlled deer hunt for population control.

- A significant logging season focused on salvage of the wood brought down by the August 2, 2011 windstorm. At about 40% completion of the salvaging, the harvest included 110,000 board-feet plus 146 cords. Some of the oak veneer was of such quality that it was shipped overseas. A large focus was removing all the damaged pine to prevent bark beetles from invading.
- Students, staff, and volunteers completed 20 acres of prescribed burns.
- A deer hunt was not held this year, and a hunt will not be held in fall 2012. The Abbey will move to a bow hunt in the future to extend the season, reduce safety costs, reduce conflicts with other events, and still achieve the population reduction goal.
- The Abbey received a Model 4700 John Deere tractor as well as an International 4500 tractor with belly-blade for caring for the trails and other projects.
- New wildlife seen at Saint John’s for the first time (or the first time in a long time) include a pair of nesting Trumpeter swans on the wetland with three cygnets (baby swans), and a Black bear in the woods and around campus in summer 2012.

Goals for FY2012 and beyond

- Find a long-term solution for $40,000 annual fundraising need for Environmental Education Fellowship and preK-12 bussing.
- Develop assessment program to better evaluate effectiveness of EE and leadership development programs in improving student environmental literacy—for preK-12, CSB/SJU, and the community.
- Work on development of a “sustaining” membership campaign to encourage members to automatically renew their support for the Arboretum each year.
- Continue to cultivate relationships with local businesses to build sponsorship support of Arboretum programs.
