SCSU Anatomy Program

Talk, Tour...and Cool New Tools

Drs. Maureen Tubbiola, Heiko Schoenfuss, and Felicia Leammukda

Let’s talk about SCSU’s diverse anatomy, physiology, and medical programming!

We will start with a presentation and discussion about SCSU’s anatomy courses and what is new in human anatomy education. We will also be touring SCSU’s anatomy education facilities including the always intriguing anatomy theater. Our expert presenters will also be discussing and answering any questions about advising and helping students interested in biology; including health professions, field biology, and the biomedical fields.

To get a headcount for catering, an email RSVP is required by Oct 14th to: adam@srwdmn.org
