Seeking Additional Help and Resources

The Hive is a platform that links faculty, advisors, student services and students in a connected community designed to enhance student success through mutual support.

Have you explored the tutorials and written guides but still want further info or are looking for a different help topic? Hobsons has a very useful help site connected to The Hive.

- Start at the navigation menu in The Hive.
- Next click on the drop-down arrow next to your name. The menu will expand, now click on Help.
- A new window will open with the Starfish Help Center (remember we have re-branded Starfish on our campus to The Hive, Starfish=The Hive).
- Either select the topic you need from the list of topics in the Help Center or type the topic you need help with in the search bar then click on the magnifying glass to run the query.
- Once the search has been run all matching results will display, click on the blue link to open the full help article.
