### Finding the Right Space for You!

Selecting your space is a fun, exciting, and stressful time in the room selection process! The following tips and tricks will assist in selecting the best space for your group & you:

- Ensure you have 2-3 location/room ideas before you head into selection. Your #1 space may not be available, so having more than 1 option is strongly encouraged!
- Confirm your roommates in the Housing Portal a few days before your selection date to ensure your group is full for fall!
- View floor plans and videos on the Residential Life website to get a good idea of the space before selection.
- If you need housing accommodations or other items, complete those items before housing selection begins! Reach out to the appropriate department for more assistance.
